

SatSwap QA

Issue-only snapshots

Target: <https://testnet.satswap.app>

Date: 2026-05-08

This is a rebuilt issue-only artifact. Every included snapshot demonstrates a visible bug, blocker, or UX problem. Passing/happy-path screenshots were excluded.

Included issue snapshots: 10

High: 2 findings

Medium: 4 findings

Low: 1 findings

Findings

ISSUE-01 **Add-liquidity rejection leaves progress modal stuck**
High Rejecting Catena signing keeps Step 3/6 spinning; Close does not dismiss.

ISSUE-02 **Token discovery route is broken**
High /tokens falls back to swap home; Explore → Tokens gets stuck on Loading.

ISSUE-03 **FAQ direct route renders wrong page**
Medium /faq direct shows swap home instead of FAQ/help content.

ISSUE-04 **Invalid pool detail routes show empty shell**
Medium Stale pool URL renders header/footer only after API 404s.

ISSUE-05 **Create Pool flow is flaky/inconsistent**
Medium Create Pool click may do nothing; token selection can drop back to pools.

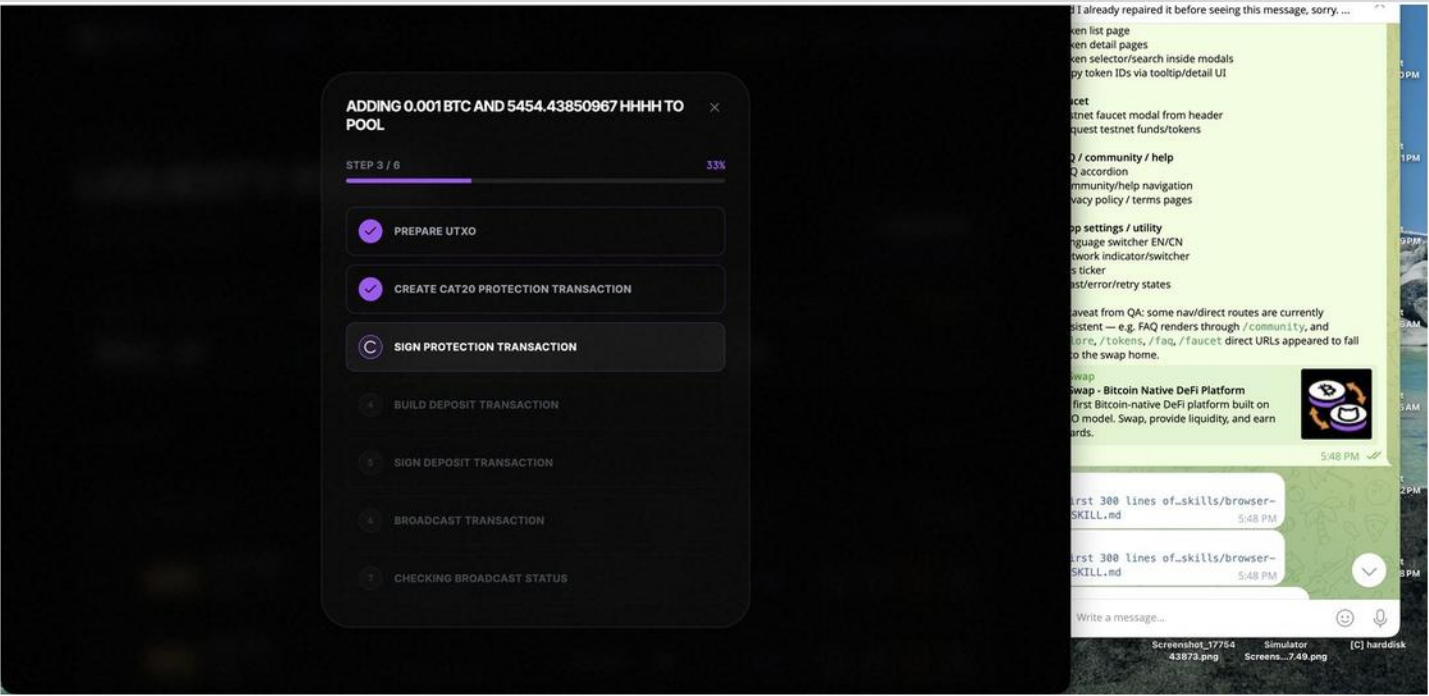

ISSUE-06 **Portfolio empty Add Liquidity CTA no-ops**
Medium Empty LP-position Add Liquidity button gives no visible action/feedback.

ISSUE-07 **Chinese mode leaves English strings**
Low Chinese UI still shows English placeholders/status labels.

ISSUE-01 · High

After rejection: still stuck at Step 3/6
